How You Know Them They hired you

Their Review

After seeing what I wanted done, Steve gave me the exact charges. He protected all corners where the hoses would rub and he wore shoe covers while doing our work. Steve also shared a lot of information with me concerning carpets, cleaning and upkeep. While the carpet was a bit wet when he finished, by evening it was mostly dry. After it completely dried we are are pleased with the way it looks. Without hesitation I will be happy to call Steam Master next time I need carpet or upholstery cleaning. And I hope Steve will be our service person!
